

1. A. $1, -1, -\frac{1}{3}$

2. B. 64

3. $\sqrt{3}, -\sqrt{3}, 4, -4$

4. A. The solution is $x = \underline{\quad 5 \quad}$.

(Simplify your answer. Type an integer or a fraction. Use a comma to separate answers as needed.)

5. A. The solution is $x = \underline{\quad 10 \quad}$. (Simplify your answer. Use a comma to separate answers as needed.)

6. A. The solution is $y = \underline{\quad 2 \quad}$.

(Simplify your answer. Type an integer or a fraction. Use a comma to separate answers as needed.)
